The Big A-Ha’s
The Big A-Ha’s

Open source and continuous enhancements
The Big A-Ha’s

Build once deploy anywhere (multi-device delivery/intelligent design)
Wi-Fi Eavesdropping involves capturing information over an unsecure/uncrypted/open Wi-Fi network. The "Perils of Public Wi-Fi" is one video in an informative video series with tips to help keep your information secure, stay safe online and be cyber aware. The series covers privacy, mobility, passwords, public wifi, phishing emails and social media.

This type of attack is known as...

- The Imposter attack
- The Repeat Offender attack
- The Evil Twin attack
- The Double Whammy attack
The Big A-Ha’s

Efficiency - Allowed for the adoption of agile practices and co-development (multiple devs in the same file at the same time)
The Results are In
The Results are In

Our Testing
- Project lifespan reduced by 35% (6 end-to-end projects)
- Development time is 38% faster when comparing Adapt to other tools (3 tandem development projects)
The Results are In

Our Projects (Fiscal 2016 team of 4)
• 58 new learning solutions were designed, developed, and deployed
• 22 new pages of curated content aligned to Professional & Technical Capabilities were created
What Employees Say
• Adapt courses deployed in our LMS have an average rating of 4.74 stars out of 5
What we learned
What we learned

Learning curve
What we learned

Infinite scrolling
What we learned

Unique Features:
• No native recording
• Although you can add audio as a separate media file, audio playback for each page is not supported
• Animations are not supported
