Designers often find themselves playing many roles in training development. Due to time or budget constraints, the role that usually ends up taking a backseat is the role of graphic designer. And this is a challenge because solid graphic design makes a big difference in how people receive and process information, which is L&D's ultimate goal. While graphic design can seem difficult and time-consuming, it doesn’t have to be.

The most durable glass ever in a smartphone, front and back. Surgical-grade stainless steel. Wireless charging. Water and dust resistance.
More muscle in every millimeter.
Now equipped with seventh-generation Intel Core processors, MacBook is snappier than ever. From daily tasks like launching apps and opening files to more advanced computing, you can power through your day thanks to faster SSDs and Turbo Boost processing up to 3.6GHz.

We squeezed the most into it.
And out of it.
Each component inside MacBook has been meticulously designed to get the most out of an incredibly thin and light enclosure. We chose powerful yet highly efficient processors, and optimized macOS to draw on the processor using as little power as possible. Because no fan is needed to cool the computer, it has more room for battery cells to support you on the go, all day long.
